## Episode 1: COG LOOKS INTO CO2 AND CLIMATE

# QUESTIONS: How does weather affect climate? How does climate affect weather?

## **Before-You-View-Video Activities**

### **Activity 1:**

Increase your visual literacy and "warm up" by pondering what you already know about weather and climate. Draw an icon that represents these words to you.

| represents these words to you. |                 |                 | ,                        |
|--------------------------------|-----------------|-----------------|--------------------------|
|                                |                 |                 |                          |
| Weather - Sunny                | Weather - Rainy | Weather - Snow  | Today's weather forecast |
|                                |                 |                 |                          |
| A tropical climate             | A dry climate   | A polar climate | Your climate             |

Share your icons with classmates. Add or redraw icons if you choose.

## **Activity 2:**

Think about the icons from Activity 1. Did pictures describing climate include adaptations people have made to live in these climates? Did you include animals that live there? Why might these images have come to mind? Use this rectangle to make a sketchnote (notes that include words and images). Use icons from Activity 1 and words that connect ideas. What do you already know about how weather and climate affect each other. Leave room to add ideas later.

| How does weather affect climate?      | How does climate affect weather? |  |  |
|---------------------------------------|----------------------------------|--|--|
| i i i i i i i i i i i i i i i i i i i |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |
|                                       |                                  |  |  |

## **Post-Viewing Activities**

## **Activity 3:**

After viewing Cog Looks Into CO2 and Climate," add any new information from the video to your sketchnote.

## **Activity 4:**

Explore "Weather vs Climate" explanations. Afterwards, add icons and words to the sketchnote from Activity 2.

## **Step 5: Discussion**

How would you answer the question, "Does weather affect climate or does climate affect weather?"
